

**pHis-TEV-EGFP Vector**  
Cat#BB-V0020E (10µg)

**Description:** This is a modified pET vector (pET21d) used for the expression of N-terminal His-GFP tagged protein in *E.coli*. The vector contains N-terminal 6X His-TEV-GFP site. Ampicillin is the selective marker for the vector.

Storage: - 20°C

**Sequence of MCS:**
