

Anti-p53 Antibody

Cat# BB-AB0100 100µl (100µg)

Cat# BB-AB0100S 25µl (25µg)

Clonality: Polyclonal

Host: Rabbit

Immunogen: Full-length human p53 protein expressed in *E. coli*.

Purification: Affinity chromatography.

Specificity: Detects endogenous levels of total p53 protein.

Application: Western blotting, ELISA.

Recommended Dilution:

Western Blotting: 1:2000-1:5000

ELISA: 1:1000

Storage buffer: Tris Buffer pH 7.4, containing 1% BSA & 50% Glycerol without azide.

Recommended Storage: -20°C.
